The most extraordinary discovery in the World is the Grat Arabian Remedy for man and Boast. H. G. FARRELL'S

CELEBRATED ARABIANLINIMENT FF IS AN ERRONEOUS IDEA that diseases cannot be cured except by taking large quantities of medicines into the stamach, in a great many cases of which much injury is done, although the disease in point in actually cured. The coats of the stemach by continued use of nauscating mixture, frequently become so much disordered that the disease

ice function is arrived injured—the result of which is dyspensia, nervousness, cholics, alternate diarrheet and costiveness, flatulence, nightmare, etc., etc. Would it not, therefore, be very desirable to possess a remedy, which being applied esternally would exert the absorbenuto increased action, and thus carry off through this medium, the deleterious principle, which is the direct cause of the disease? Sure y every thinking man will admit that this would not only! be the most pleasant, but by far the safest means to effect the desired end. The almost superhuman cures performed by the Arabian physicians in the days of old were mainly effected by this course of treatment, and the ingrefigats of which H. G. FARRELL'S CELEBRATED ARA-BIAN LINIMENT is composed, are extracted from rare plants peculiar to Arabia, This great Liniment (which is now to be had of most respectable druggists and merchants in every town in the United States) is daily affecting cures which seemed beyond the power of medicine to controlconsumption, bronchitts, and liver complaints in their first Boots, Shore and Brognas, which they have recently restages, nervous affections, indigestion, enlargement of the ceived, direct from the Manufactories, and offer them at the spleen, scrofulous tumors, gottre, etc., etc., are frequently cared, and always relieved by its use.
